

Heat pumps for domestic swimming pools Pro-Pac 8-22

Summer

Extended

All Season Use

Calorex Pro-Pac heat pumps are specifically designed for swimming pool heating. Heat pumps are recognised as the most sustainable way to dynamically heat swimming pool water and with a Calorex heat pump you will save both energy and operating costs.

Calorex Pro-Pac X heat pumps are designed to work throughout the year when air temperatures are above 5°C.

Pro-Pac X heat pumps are suitable for outdoor pool heating or pools with a semi-permanent enclosure to extend the useable period of a normal outdoor pool.

Calorex Pro-Pac Y heat pumps are designed to operate in air temperatures as low as -15°C and are ideally suited for heating indoor or outdoor pools all year round.

Advantages of a heat pump

- Up to 400% operating cost and carbon saving against direct electric heaters
- Up to 47% operating cost saving against fossil fuel boilers
- Up to 60% carbon saving against fossil fuel boilers
- No flues or fuel storage tanks
- Minimal maintenance
- · Easy to retrofit to existing swimming pool systems

Key features at a glance

- Designed and built in the UK to ISO 9001, for the UK climate
- Purpose designed components for swimming pool heating
- Intelligent electronic defrost improves early and late season performance (X models)
- Can be installed outside or in a plant room
- High efficiency full flow Titanium condenser
- · Leading brand rotary or scroll compressors
- Water flow switch
- Pool pump synchronisation control
- Touch screen controls
- Capacities from 8kw to 22kw
- Choice of single or three phase
- Soft start options
- Nationwide service

* Y model only

- Pro-Pac X models operate in air temperatures above +5°C. These models are designed for seasonal use.
- Pro-Pac Y models are fitted with reverse cycle defrost and will operate in air temperatures as low as -15°C, therefore they are suitable for all season use and indoor swimming pools

Technical support and service: Comprehensive engineering support is supplied by our experienced and well qualified team.
